Will the revised Chapter 2 be uploaded to Patreon, and if so when?

Yes, it will! So will Chapter 3. I'm hoping to get Chapter 2 out within the next month—we've been working on restructuring the book with a full outline, having conversations with Kaitlyn and the team, and laying out the bones for the first ten chapters. I'm in the process of rewriting Chapter 2 as we speak!

An important lesson I learned this year is to always prioritize quality over speed.

May I ask will the ama be through asks like this one or in the comment section of your ama post? If through asks, I'd love to know if we'll get to see any trans characters in the future of world of gardian!! In recent months I've grown a little fond to the trans Avia headcanon, being how she seems to not fit into her

> family at all, the feeling of being different and needing your own place. (And in that breath, are you okay with headcanons and things like that?)

Hello there! Should've answered this one a bit ago, but had my media break. Yes, we most definitely will see more trans representation in Gardian! Though Avia is a canonically cis character, I don't mind head canons at *all*, and I love that people can find inspiration in my characters to create their own stories. I answered previously about trans representation:

> Yes to both! It's already being written in—there is a trans character featured in the main cast. The second version of AOS will openly have both trans masc and trans fem representation.
>
> Though I didn't specify it in the first version, Atlas is canonically a trans man; that'll be clearly established this time! 🏳️‍⚧️

What made you choose the name Milo?

Milo means “soldier”—I grew up as a military kid and my name has personal significance to me and my life. I knew immediately when I saw the name that it was my name. Weird phenomenon for an author who spends way too much time on naming characters!

> Can I ask who made the main book cover with Rieka and Narah? I've been trying to find em because I rly like their art

Haha, that would be @the-d12rose, aka Elrose, who is still active on the WOG team! I believe she's open for commissions right now? I cannot recommend Elrose enough, she is an incredible artist and human being.

I look at this art every day on the books! I always like to pause and look at the colors on the back cover, for some reason those deep blues and greens are soft to the eyes. Hopefully it's okay to share the full piece here, all credit to El <3

Good luck with your regrowth! You never deserved what people put you through. I'm glad you haven't given up on Age of Scorpius (or worse: writing itself) and I'll be looking forward to whatever you publish. I hope all you biggest dreams come true.

You have no idea how much this means, thank you.
